- 1908—Hon. William McDougall of Ontario, one of the "Fathers of the Confederation," died. Born Jan. 25, 1822.
- 1909—Great street car strike was begun in Philadelphia.

CONE JOHNSON CLUB.

Cone Johnson club lists are being circulated with a view to uniting his supporters in this county and city. A number of these lists are in circulation, and if your community has not such a list write the Herald and you will be furnished a list for names. This is an important matter to the friends of the Tyler man, and no man who favors Johnson and wants to see him elected governor should fail to sign his name. If you have not located a list call at the Herald office and get up, or better still, take a list and get busy with it. Anderson county should have a signed up Johnson club of one thousand or more. Get into the work and let's give our man all the help possible.

SIMPLE ISN'T IT?

One Robert Kennedy Duncan, writing in Harper's Magazine, tells us a lot about an atom. He starts out by making the assertion that "Everybody knows that radium gives off rays of three types—the alpha, beta and gamma rays." Simple, isn't it? Yes, everybody knows (?) And those who do not know are too modest to acknowledge they do not. So we will have to let it go at that. These scientists tell us a lot of things. Many things they tell us we are bound to admit are true, because they demonstrate the accuracy of their calculations and demonstrations. Many, many other things we are bound to accept on faith. For instance, we must accept Mr. Duncan's assertion that these alpha rays, in which he says we are much concerned, are positive, charged, flying particles of atomic dimensions, that fly through the air at the rate of twenty thousand miles a second. My, they have old

Halley's comet skinned a city block when it comes to traveling. That celestial visitor only makes twenty-two miles a second. Compare that, will you, with twenty thousand miles a second. And these atomic rays have been captured in their flight, one by one, and have been analyzed. Think of that, will you? It transcends any analogy with which any one might attempt to compare it. These particles, tearing through the air at twenty thousand miles a second render electrical the air through which telegraphy is conducted. And there you have the whole secret of wireless telegraphy. Just as simple as rolling off a log, or constructing a split log drag. And in the face of this evidence and explanation the Herald wants to put it right up to the commissioners that we cannot see through every problem that is presented us. Possibly that is the reason they cannot log, or constructing a split log drag, will smooth out the rough places, wring the water out of the soil, and make our otherwise rough streets a joy forever. We must accept by faith what we cannot understand.

Now. Reports from all sections bring good crop news. Things are growing. Unless all signs fail this is going to be a great crop year. A big fruit crop is already an assured fact for East Texas.

Cooke county, the home of Senator Bailey, walked over into the dry column Saturday, by a good majority. The town of Gainesville will close up some twenty saloons as the result of the election. Tell it to Joe.

Hon. Cone Johnson broke the record for crowds to hear a gubernatorial candidate in Corsicana Saturday. He was listened to by an audience of twenty-five hundred people, and made a great speech. Johnson is the strongest man in the race as it stands today, and is gaining strength every day.

Traveling men generally report business slow all along the line. Some few people have been laboring under the opinion that business was only slow in this good old town, and have been inclined to be pessimistic about it. The truth is, Palestine is in better shape than the majority of interior towns. Nothing serious is the matter here, and we only need to keep hustling to keep things going smoothly.

The dispatches bring the information that following the decision of the committee investigating the Ballinger-Pinchot inquiry Ballinger will tender his resignation to the president, which will be readily accepted. Ballinger should have retired some months ago and saved his face. Whatever the decision of the committee may be, and it is conceded that Ballinger may come out with his hide, the people of the country have already decided the case adversely to the secretary.

The Lorimer scandal in Illinois is becoming of national notoriety, and new confessions are coming daily. While Lorimer was entering a general denial on the floor of the senate at Washington men back in Illinois were confessing their crookedness and adding to the importance of the case. It should be remembered, however, that while in all of these legislative scandals some few men are painted very black, yet there are hundreds of men against whose honor and reputation there are no charges. So, we should not lose heart and conclude that all men in office are black. One black sheep in a flock can always be singled out easily.

TEXAS NEWS NOTES.

Candidates for state and legislative offices have one week more for filing names.

The Uvalde & Crystal City railroad plans a southeastern extension.

The state banking department expects the number of state banks to reach six hundred within the next month.

The Anti-Saloon League declines to endorse candidates while two friends run.

MR. DILLEY'S FUNERAL

Impressive Services at the Home of Mr. G. E. Dilley Yesterday Afternoon.

A large company of sympathizing friends gathered at the home of Mr. G. E. Dilley yesterday afternoon at 4 o'clock to attend the funeral of the late Mr. G. M. Dilley, who died in Mattoon, Ill., and whose remains were brought to this city Saturday night. Rev. L. D. Anderson, pastor of the Christian church, preached the funeral service and paid a splendid tribute to the man whose life in this community for many years endeared him to all people and whose example is worthy of emulation. The speaker reviewed in brief the virtues of Mr. Dilley's long and useful life, and said the good name he left to his family was a heritage above price. A quartette composed of Mrs. Grigsby, Miss Burton, Mr. Appel and Mr. Shelton, sang two appropriate selections at the home, and also sang at the grave side. The pall-bearers were Active, Messrs. G. A. Wright, A. Howard, D. J. Price, Wm. Broyles, Jno. R. Hearne, F. Hufsmith, Honorary Messrs. L. Gooch, I. S. Dillam, W. B. Flanagan, Tucker Royall, W. Cunningham, W. G. Jameson. The floral offerings were beautiful and elaborate.

Following the services at the home a large procession escorted the remains to the cemetery, where the body was consigned to the grave with simple but impressive ceremonies.

Mr. Dilley was one of the pioneer citizens of Palestine and for many years, until his retirement from active business circles, was one of the leading business men of the city and of this section. Always a kindly man, he made many warm friendships among this people, and most of the older citizens knew him as a staunch friend. To these, and all others who knew him even slightly, his death brings profound sorrow.

CURTISS MAKES RECORD

Flies From Albany to New York City In Two Hours and Thirty-Two Minutes—New Speed Record.

New York, May 29.—Glenn H. Curtiss flew from Albany to New York City in an aeroplane today, winning the \$10,000 prize offered by the New York World. He covered the distance of 137 miles in two hours and thirty-two minutes, and came to earth as calmly and as lightly as a pigeon. His average speed for the distance—54.05 miles an hour—surpasses any record ever made by an aeroplane in long distance flights and in its entirety his feat perhaps eclipses anything man has ever attempted in a heavier-than-air machine.

The start was made from Albany at 7:09 o'clock this morning under con-

desired. One hour and twenty-three minutes later he had made his stopping place near Poughkeepsie, where there was an hour's intermission. Resuming his flight at 9:26, he sped on southward and landed within the boundary of Manhattan at 10:35. Only one hundred yards north of the point on which his craft settled stretched Spuyten Duyville Creek, separating Manhattan Island from the mainland. Had he failed to cross this, his flight would have been in vain. But he succeeded. Thence to Governor's Island his task was but a skim of triumph and the concluding lap of a race already won.

MOTHER FILES CHARGES

Against Her Son and Has Him Sent to the Rockpile.

(Herald Special.)

San Antonio, Texas, May 30.—Because 17-year-old Woltham Ysayer would not work and mend his ways generally, his mother preferred charges of vagrancy against him and asked Judge Buckley of the police court to send him to the rockpile for a long term with a view of introducing him to work and the joys of liberty. Her request was granted and for twenty-five days the young man will know what work is.

NOTES OF INTEREST.

The government cotton report is expected to show an increase in acreage.

Curtiss made a flight of 138 miles from Albany to New York in one hour and thirty-two minutes.

Interesting developments are expected in the Springfield bribery investigation today.

The cruiser Prairie left Philadelphia for Colon with marines.

The Pearson syndicate plans a system of roads connecting the East and Pacific Slope with gulf country.

Walls of masonry ten feet thick, with iron windows, believed to be the remains of the San Francisco monastery, were found beneath the streets in City of Mexico.

The Herald prints candidate cards.

MADERO WILL OPPOSE DIAZ.

Gomez Asks Support as Vice President on Anti-Re-election Ticket.

Monterey, Mexico, May 29.—In the first issue of the official organ of the Anti-Re-electionista Club, El Republicano, published today, Francisco I. Madero, a wealthy haciendado of Nuevo Leon, announces himself as a candidate for president, and Dr. Francisco Vasquez Gomez asks for support as vice president on the anti-re-election ticket.

The new publication is managed by Attorney Francisco Martinez Ortiz. It is devoted chiefly to editorials con-

cerning the coming election, and considerable space is given in explaining the platform of the anti-re-electionists. The paper also contains a lengthy open letter from R. Estrada to President Diaz, giving the reasons of the new party for opposing the re-election of the incumbent.

Mr. Madero is the contributor of a lengthy speech, giving his reasons for opposing President Diaz and for desiring to have the office held by Vasquez Gomez. The new publication consists of four pages, and the type is set by hand.
